### 1. Overview of Operational Results

## (1) Quarterly Operational Results

Japan's economy in the first quarter of the consolidated fiscal year under review was marked by extreme challenges associated with the COVID-19 pandemic. While economic activity gradually resumed, subsequent waves of infections led to a continuing market polarization between sectors such as the food service industry and travel industry which suffered pronounced downturns and those serving consumers at home, which continued to experience upturns.

In the United States, due to steady progress with COVID-19 vaccination, further recovery in occasions to go out for citizens from March, and the passage of additional economic stimulus measures totaling \$1.9 trillion, the economy is expected to show steady movement toward normal economic activity. China's economy continued to experience a steady recovery in consumer spending and continually improving conditions, driven largely by domestic demand and exports, founded on the country's success in containing COVID-19.

Under the slogan "Refreshed and Moving Forward," group companies worked collectively to increase earnings by venturing into new markets, making substantial capital expenditures, and improving quality management. Nevertheless, the continuing COVID-19 pandemic affected business performance.

During the quarter under review, net sales fell 8.2% year on year to ¥17,971 million; operating profit fell 17.8% to ¥785 million; ordinary profit fell 16.3% to ¥837 million; and profit attributable to owners of parent fell 8.1% to ¥568 million.

The business performance for each segment is given below.

#### (Paper Products)

The paper products segment accounted for 68.7% of consolidated sales in the first quarter. Sales of paper bags, which accounted for 26.9% of consolidated sales, declined due to slowing consumer spending attributable to the COVID-19 pandemic and the decision by certain customers to begin charging fees for bags. While the overseas subsidiaries The Pack America Corp. and The Pack (Shanghai) Corporation recorded strong performance, slow performance of domestic subsidiaries led to a 12.4% decline in paper bag net sales year on year to \$4,825 million.

Sales of folding paper cartons, which accounted for 23.3% of consolidated sales, grew 1.8% to 4,193 million yen. Sales of cartons for takeout/delivery food products and to the e-commerce sector remained firm.

Sales of corrugated boxes, which accounted for 15.6% of consolidated sales, grew 13.9% to 2,809 million yen, driven by firm sales to the e-commerce sector.

Printing sales, which accounted for 2.9% of consolidated sales, fell 4.1% to 514 million due to lower sales at Keihin Tokushu Printing Corp. and NIKKO PRINT CORPORATION.

Overall, sales in this segment fell 2.3% to 12,343 million yen. Operating profit fell 10.5% to 743 million yen.

#### (Film Packaging)

The film packaging segment accounted for 14.3% of consolidated sales in the quarter under review. Segment sales fell 31.1% to 2,577 million yen due to declining sales of disposable diaper products, lower sales to specialty retail stores in Japan due to COVID-19, and the impact of mandatory fees for plastic shopping bags that went into effect on July 1 last year. Operating profit fell 39.6% to 98 million yen.

## (Other Businesses)

Other businesses accounted for 17.0% of consolidated sales in the quarter under review. Sales fell 4.4% to 3,050 million yen due to lower sales of miscellaneous supplies to large retailers, while operating profit rose 18.7% to 179 million yen due to purchase price adjustment.

### (2) Quarterly Financial Position

Assets totaled 82,067 million yen at the end of the quarter under review, down 1,488 million yen from the end of 2020. Major factors included a decline of 1,954 million yen in cash and deposits, an increase of 505 million yen in securities, an increase of 430 million yen in investment securities, and a decline of 4,723 million yen in notes and accounts receivable-trade.

Liabilities fell 1,898 million yen to 21,917 million yen. The primary factor was a decline of 1,696 million yen in notes and accounts payable-trade.

Net assets grew by 410 million yen to 60,149 million yen. The key factors were an increase of 298 million yen in valuation difference on available-for-sale securities and an increase of 107 million yen in foreign currency translation adjustment.

#### (3) Explanation Regarding Consolidated Business Forecasts and Other Forward-Looking Statements

Consolidated business forecasts remain unchanged from the information announced February 5, 2021.
